

NOTES FOR DDCI

5 March 1964

25X1

1. There will be a need to reassign some of those functions, which [] and his staff have been carrying, to other Agency components. Some time ago, you said you would reassign these functions. Is there anything I should be doing for you in this respect? *Keep worrying about it or ask Kirk to do it!*

2. [] advises that, as a follow-up to the day the Marine generals invaded us for briefings, he will be giving briefings to General Walt and six other Marine Corps officers from the Quantico Research and Development component in the near future.

3. Khrushchev was in his usual form when he chatted recently [] According to [] Khrushchev hates the Germans viciously and said if they made trouble, the Russians had one bomb which would destroy all of Germany, but he would see to it that three bombs were used. K pooh-poohed deGaulle and said France had no influence in world affairs. K said he didn't think much of Harold Wilson and said that he thought whether Britain was ruled by Conservatives or Laborites makes no difference. K said he hoped to get long-term credits []

At one luncheon K told [] that if the US harms Cuba, the USSR would first take Berlin and then Iran and if that did not create the desired effect, "it will be your turn". K then laughed and said he was just joking. [] impression was that Khrushchev was joking only about []

6. Sometime back, when General Maddux first learned of your plans for the FE trip, he asked [] to cable you inviting you to spend a night with him at Clark or Baguio. We replied saying we would be more specific as trip plans jelled. You arrive in Manila the afternoon of 31 March, stay overnight and go to Baguio the afternoon of 1 April. You return to Manila late on the 4th and depart for Honolulu in the afternoon on Sunday the 5th. If you would like to dictate a few remarks to General Maddux about a rendezvous, I'll get them off by cable.
